March 27, 2020

Zephyr ISD Families,

Congratulations, you have officially survived the second week of "School Closure Due to COVID-19!" Way to go! Hang in there! Thank you again so much for your patience with us as we strive to continue having school...when students can't come to school.

As we have mentioned before, we are in the process of moving from the paper packets to a digital, online model of instruction. We had hopes of being able to get devices out this week; however, we will not be able to get those out until next week. We will be contacting you individually to schedule a time for you to pick up devices, depending on how you responded to our survey.

As some teachers have already started experimenting with the online instruction, many of you may be discovering the devices you have are not compatible with the Google applications or not ideal for completing the teacher's assignments. Don't get stressed. We understand this is going to happen and we will be reaching out with you next week via another survey to check on needs and/or problems you have encountered.

As of Monday, we are encouraging teachers to work from home if they are able. In addition to what they have planned for instruction, they will be available via email from 9:00-3:00 each weekday and will have "office hours" set aside to answer questions or help walk you through any trouble you are having with an assignment. We will be posting these times and email addresses for each teacher on Monday.

Please enjoy your weekend and follow the guidelines set forth by our health and local government officials.

Thank You,

Zephyr ISD Administration
